Dear Miss Samsonoff ,

Thanks very much for the efforts you have been making in tracing my little daughter, although no positive results have been yet attained . Because your Organisation was taken over by the Allied High Commission , so I would be kindly notified whether new tracing research might be continued - if necessary - by that Commission, on supposing that Fiorella was removed by Russians to Crimea .

I can hardly give up to the idea of tracing my little daughter and I hope to see her again in the future .

I am very grateful for your assistance and for the help I have been given .

Very grateful yours
